Experience

Anuta Networks / User Experience Designer

FEBRUARY 2018 - PRESENT(6 YEARS)

In Anuta Networks I'm working in big data UX, infographics, network device management UX, branding, and marketing guidelines. Experienced in working closely with Designers, Marketing people, UI developers to create intuitive and visually appealing interfaces.

Designing user-friendly interfaces for network device management applications, focusing on topology, closed-loop automation, workflows, service monitoring, and network configuration compliance. and designing and creating multiple dashboards for various features and user segments and customizable dashboards to enhance usability and provide tailored experiences for users.

Magnigeeks / UX/UI Designer

SEPTEMBER 2015 - JANUARY 2018 (2 YEARS 5 MONTHS)

At Magnigeeks, I worked on diverse projects across industries and user groups. Designing for different user contexts helped me understand user needs better. I also gained valuable exposure to different businesses by working on in-house products. Overall, my time at Magnigeeks was fulfilling and helped me grow as a designer.

In Magnigeeks, I successfully led the branding efforts for the company's in-house products, including the development of multiple WordPress and PHP plugins, web pages, and web applications. Additionally, I spearheaded the creation of Android and iOS apps, and oversaw the launch of products in various marketplaces. With my expertise in marketing, I effectively promoted the company's offerings and managed to create engaging marketing materials. Furthermore, I took charge of the company's interior design, ensuring a cohesive and attractive overall aesthetic.

Education

Utkal University / MCA

MAY 2012 - JULY 2014

Contributed experimental project like Auto-pilot system in drone, Arranged Python workshop by Spoken Tutorial Project, an initiative of M.H.R.D Govt. of India and IIT Bombay.

MITS School of Biotech./ BCA

MAY 2008 - JULY 2011

During my graduation, I successfully created a job portal using PHP and MySQL. Additionally, I enthusiastically volunteered for a wide range of activities, including various sports, cultural events, and annual gatherings.

I also took responsibility for overseeing art and culture-related matters during this time.
